Letter of Recommendation

19/09/2022

To whom it may concern,

On behalf of the Cambridge Centre for the Integration of Science, Technology and Culture (CCISTC) at the Department of Psychology, University of Cambridge, I'm pleased to write this reference for Pengkun Hou. Hou attended the Cambridge Online Research Internship Programme in AI organised by CCISTC from 25/07/2022 to 09/09/2022. Students participated in this programme generally benefit from the academic lectures and research guidance provided by the invited lecturers and supervisors from relevant subject(s).

Hou's enthusiasm throughout the programme has been exemplary. Hou's engagement in the programme and exposure to world-class scholars have expanded Hou's subject based knowledge as well as nurtured Hou's research skills. This opportunity has also enabled Hou to collaborate with others in a multicultural background, as well as produce an outstanding piece of research project independently.

The supervision model has also been added to the Cambridge Online Research Internship Programme for student's better understanding of the programme academic content, development of professional skills and encouragement of critical thinking, which will be invaluable for further studies or employment.

Sincerely,

Dr. R. Michael Zhou

Executive Director

Cambridge Centre for the Integration of Science, Technology and Culture (CCISTC)

Programme Transcript

Student: Pengkun Hou

Subject: Artificial Intelligence

Programme Leader: Prof. Pietro Lio'

Programme Period: 25/07/2022 – 09/09/2022

Research Project Title: Automatic Grayscale Image-Colorization Based on
Convolutional Neural Network

Programme Assessment	Grade
Participation	A
Research Proposal	A

Description of Grading System

A - Excellent B - Very Good C - Good

D - Satisfactory E - Sufficient F - Failed

This is to certify that the above-named student attended the Online Research Programme organised by the Cambridge Centre for the Integration of Science, Technology and Culture, University of Cambridge, and obtained the results indicated above.

Professor Nicola Clayton, FRS
